## AUTOTRASPORTI CHIARCOSSO S.R.L.

60 YEARS OF CONSOLIDATED EXPERIENCE FOR A GROUP THAT LOOKS TO THE FUTURE

It was founded in 1978 by **Chiarcosso Sante**, current legal representative, who, taking over the twenty-year-old paternal company "Chiarcosso Luigi", wanted to give it an entrepreneurial, international and future-oriented imprint.

To diversify its transport activities, in 1980 the company decided to open the way also to the cross-border transport of waste. In those years the activity had to deal with the changing national and regional legislation on waste management, thus gaining a strong experience in the field.

The Company obtains registration in the Register of Environmental Managers in Categories 1, 4, 5 and 8.

**Autotrasporti Chaircosso s.r.l.** has progressed over time arriving in 2014 to inaugurate the new company headquarters and growing over time has come to count two hundred employees (one hundred and thirty of which, drivers) and a modern and efficient fleet of 500 vehicles that have allowed it to successfully address the foreign market , extending the routes to France in the last two years. The great advantage of a reality so equipped is that of being able to provide immediate and competent services by moving large volumes on the national and international territory, quickly solving problems related to the disposal of large quantities of waste (e.g. remediation, clearing) or large supplies of raw materials ( timber, chips, scrap, limestone, slag, grain, glass, aggregates) and semi-finished products (cast iron, electro-welded mesh, jumbo, wire rods, billets, panels, paper reels, conglomerates, bricks) always in full compliance with the rules.
